ACCUTROL LLC

- Critical environment airflow control and airflow measurement systems

ACT

- Energy recovery heat pipe heat exchangers
- Wrap-around heat pipe exchangers
- Passive, controllable or pumped solutions

AE-Air Applied Environmental Air

- Water source heat pumps
- Chilled water fan coils and air handlers

AIRSYS Balance the Environment

- CRAC systems
- Wall mounted air conditioners
- Vertical unit ventilators

CAREL

- Electrode, resistance, and gas-fired steam humidifiers
- High-pressure, compressed-air, and ultrasonic adiabatic systems
- Duct-mounted, air-handler, and direct-room distribution options

BROMIC HEATING

- Outdoor patio heating with layout assistance
- Portable gas heaters
- Electric and gas heaters
- Multiple heater controls

DESERT AIRE

- Pool and natatorium dehumidification
- Cannabis growing and drying facilities
- Industrial dehumidification

First Co.

- Multifamily HVAC systems
- Chilled water fan coils

GREE

- Ductless mini-splits
- Central air heat pump FLEXX™ systems
- MultiPro™ systems

Heatco

- High-capacity duct furnaces
- High-efficiency duct furnaces (93%)
- Highly configurable

Islandaire The perfect fit.

- Patented PTAC and VTAC technology
- Advanced water source heat pumps

LJIING

- Integral face and bypass steam/HW coils
- Unit heaters, door heaters, air curtains
- Makeup air units

MARCRAFT CUSTOM HVAC SYSTEMS

- Custom air handling
- Mechanical penthouses with full piping, electrical, and temperature controls

mars

- Air curtains
- CleanAir™ Series UVC and HEPA filtered
- BACnet and wifi capable temperature controls

Measured Air PERFORMANCE

- Laboratory exhaust fan energy savings control system

NEXGEN

- Air-cooled packaged DX DOAS
- Capacity from 3-90 tons
- Compact footprint
- Horizontal supply/return options

NOVELAIRE

- Energy conservation and desiccant dehumidification wheels
- Advanced packaged dehumidification equipment

REZNOR

- Unit heaters (gas, electric, hydronic, steam)
- Gas duct furnaces
- Indirect-fired makeup air units

RGF ENVIRONMENTAL GROUP, INC.

- REME-HALO uses patented PHI-CELL technology for air purification
- Ion generators and UV-C lights
- Full residential and commercial IAQ product offering

STROBIC AIR TECHNOLOGIES

- Laboratory high plume exhaust systems
- Custom Energy Recovery Plenums

TEMPEFF

- DualCore® up to 90% efficient sensible heat recovery
- Multiple energy recovery air handling options

TITAN TITAN AIR LLLP

- Direct-fired makeup air and air handling
- Custom split systems
- Indirect-fired air handling

ultra pure SYSTEMS

- Ultrasonic humidifiers (wall and duct mounted)
- Deionization exchange (DIEX)
- Reverse osmosis and deionization (RODI)

VentilationDirect

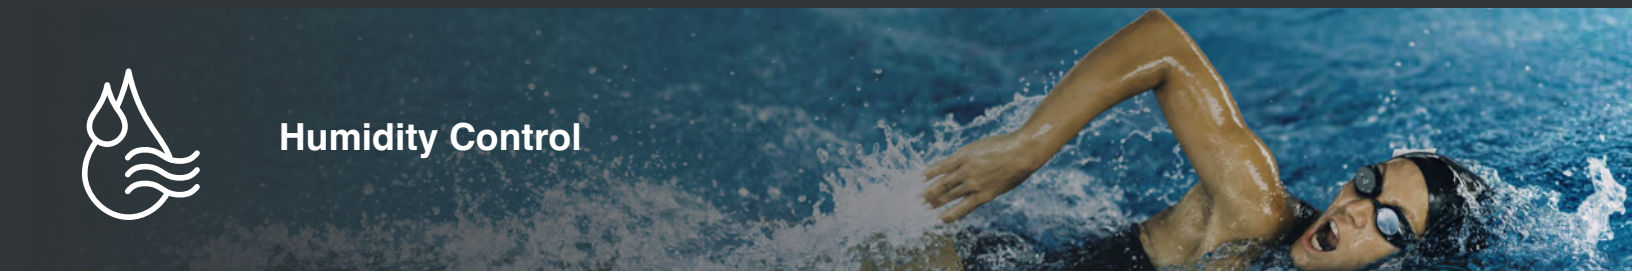

- Dedicated outside air systems (DOAS)
- Untempered and direct-fired makeup air
- High-efficiency exhaust fans
